Hello, Scott:

Next Thursday is the date that had been planned at the beginning of this year for this quarter's meeting with KDHE. I have made arrangements for a GOV. The meeting had been planned for 1 pm, so we would leave from the office near 11:30.

Morris will be going also to talk about source water protection, although with whom is still in question.

I'll be sending out a draft agenda late this afternoon. Do you have any specific enforcement items you would want to include in the agenda?

I'll be wanting to discuss their current job vacancies, adopting the 4 newer rules, monitoring for nitrite, and maybe the pilot biologic treatment for nitrate at some systems in Minnesota that might be usable for Pretty Prairie.

Thanx.

Doug Brune, Environmental Engineer
Drinking Water Management Branch
Water, Wetlands, and Pesticides Division
